Description							
Children's bedding containing certain chemicals and providing penalties							

Assumptions Used in Arriving at Fiscal Estimate

This bill requires in-state manufacturers, wholesalers, and retailers of children's bedding to conspicuously label the material with a statement that certain chemicals were used in production of the product.

Prosecutors anticipate that initially there could be a small increase in their workload, but once an example is made of violators the problem would come to an end. Prosecutors believe that there would be no fiscal effect on their offices.

Long-Range Fiscal Implications

Prosecutors do not anticipate a long-term fiscal impact on their offices should this bill be enacted.
